

# Table Design & Creation

## Data Analyst Program - Project 1

By: Valentin Plekhanov

# About This Project

Creating a database and application for managing a small travel company.

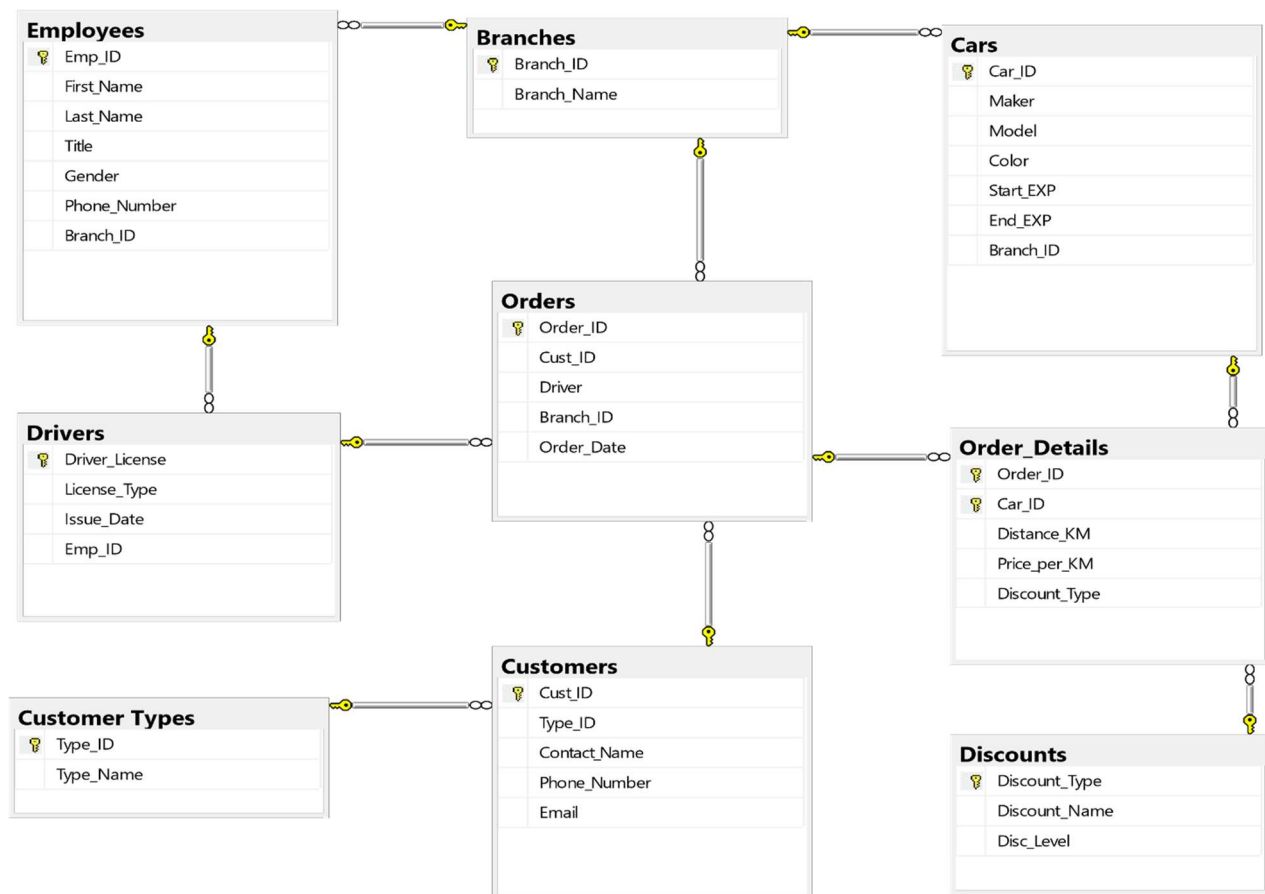

## "Lucky Trip" Shuttle company and private tours ltd.

A company specializing in providing shuttle service and private tours. The company has a wide fleet of cars, including luxury cars. The company has experienced drivers with 5 years of experience. System includes 4 branches.

# Project Description

Creating an information system and application based on SQL SERVER 2017 data base. Through the system, company employees can manage various details of the orders, and enable the company's management to efficiently and profitably manage personnel allocation and trips.
